

# Vacu-Lug Tyrfil®

TYRE SOLUTION PARTNERS

**No down-time,  
whatever  
you pick up!**

Yours is a tough and demanding business and the last thing you need is expensive tyre repairs and down-time. The Vacu-Lug process guarantees that your vehicle will keep on going even in the harshest and most hazardous conditions. High quality retread tyres injected with a proven durable compound offers the perfect combination. Designed for heavy duty off-road and industrial type tyres, this process will keep your vehicles working... whatever they pick-up.

Tyres are collected for processing, and returned to your site. All of our products are fully guaranteed and backed by a comprehensive technical support service.
